

2024 Term 3 Curriculum in Prep

at Highland Reserve State School

English

Students will explore information texts and identify differences between imaginative and informative texts. They will create short statements to explore, record and report their ideas and will look at the importance of punctuation and correct use of uppercase letters. Students will continue to develop their knowledge and application of phonemic awareness and phonics when reading and writing. They will share and present an information text to a familiar audience.

Maths

Students will investigate numbers up to and beyond 20. They will use mathematical language to compare different objects by their length, mass and capacity. Students will explore positions of object and movement using positional language.

Science

Students will explore and investigate the basic needs of living things, such as food and water. They will engage in discussions about cause-and-effect relationships, observations and share their ideas with their peers.

Students will also participate in the following specialist lessons:

Humanities and Social Sciences

with Mrs Jansberg or
Mrs Taylor

Health and Physical Education

with Mr Aldridge or
Mr McCracken

Music

with Mr Howland or
Mrs Barker
