

2026 YEAR 5 TERM 4 OVERVIEW

6th October - 11th December

In Year 5 this term, we will be learning about:

» ENGLISH

Students will study a novel and respond to questions demonstrating their understanding of the story and ideas, context, language features and text structure. Students will write a narrative inspired by the ideas, events or characters from a narrative text.

» MATHS

Students will be investigating place value with decimal fractions. They will solve problems involving multiplication and division algorithms. Students will also explore probability and conduct a chance experiment.

» SCIENCE

Students will investigate solids, liquids and gases and their observable properties and how these can behave in different ways. Students will pose questions, make predictions and plan investigation methods into the observable properties and behaviours of solids, liquids and gases.

» HASS

Students will explore the importance of values and processes to Australia's democracy and how people achieve civic goals. Students will learn about elections and the roles of elected representatives. They will investigate how citizens with shared beliefs and values work together to achieve goals.

Encourage students to regularly read at home and practise their multiplication facts.
