

# 2024 Term 1 Curriculum in Year 1

## at Highland Reserve State School

### **English**

Students will listen to, read, and experience a range of text types including recounts, procedural, and imaginative texts. They will explore the different purposes of texts and write short texts. Students will develop their reading skills, focusing on fluency and recognising literal and implied meaning. They will listen to, recite, and perform poems, chants, rhymes and songs, imitating and inventing sound patterns including alliteration and rhyme.

### **Maths**

Students will start the year exploring numbers by recognising, counting, sequencing, partitioning and locating numbers up to 100. They will investigate length and capacity by measuring and comparing different objects. They will also collect and represent data in simple data displays and describe the information collected. They will also classify outcomes of simple familiar events.

### **Science**

Students will investigate different types of everyday materials and how these can be changed or combined. They will pose and respond to questions, make predictions and record observations. Students will follow instructions to participate in guided investigations about the properties of materials.

### **Design Technologies**

Students will explore the characteristics and properties of materials and components that are used to produce designed solutions. They will design and make a vessel to hold objects. Students will evaluate their material choices and design and connect their learning to Science.

**Students will also participate in the following specialist lessons:**

#### **Humanities and Social Sciences**

with Mrs Jansberg or Mrs Taylor

#### **Health and Physical Education**

with Mr Aldridge or Mr McCracken

#### **Music**

with Mr Howland or Mrs Barker
